The 60-120 Day Job Prep Plan

My goal is to: UX Designer

Environment: Being able to help others fuels me. I also love learning more and love learning new things. I do not like doing the exact same thing over and over again.

Learning: I crave mentorship but also love passing that along. I love being able to mentor others as well to pass on my mentor's knowledge. I like having teammates to collaborate with.

Industries: Software Companies, Theme Parks, Entertainment

Impact: It is important to me that what I am working on impacts somebody positively. It does not need to have a world impact but needs to create a better user experience for the ideal user.

Culture: A company that has a culture that promotes innovation and collaboration.

Outcome or Goal	In the next 60 days, I will...	In the next 120 days, I will...
Build My UX Portfolio	❏ Finish adding my case study pages.	❏ Add two more case studies to my portfolio.
Complete 3 UX Case Studies	❏ Iterate on and finalize my case studies from class and add them to my portfolio.	❏ Complete two new case studies (one redesign and one mobile app passion project) and add them to my portfolio.
Build a UX Network	❏ I will connect with 60 people on LinkedIn and go to a technology convention.	❏ I will connect with 120-200 people on LinkedIn and go to 6 online technology "ted talks."

The 60-120 Day Job Prep Plan

Build a Freelance Business in UX	❏ I am not planning on building a freelance business.	❏ I am not planning on building a freelance business.
Get a New Job in UX	❏ Finish my portfolio and start applying to a few UX Jobs. While applying I will do interview prep.	❏ Continue applying to jobs (if I have not gotten one) and will complete one more redesign case study and one passion project case study.
Prepare for Design Interviews	❏ I will do weekly interview prep with career services and with a tutor.	❏ I will do weekly interview prep with career services while also finding youtube videos to prep for interviews, whiteboard and more.
